Terms of Approval

Design Organisation Approval Certificate

EASA.21J.300

1 Scope of approval

This Design Organisation Approval has been granted for:

- designing engines and changes and repairs thereto in accordance with the applicable type certification basis and environmental protection requirements;
- demonstrating and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2 Categories of products

Turbine Engines

3 List of products

Types for which GE AVIATION CZECH s.r.o. is type-certificate holder:
M601/H80 series engines

4 Privileges

- a) The holder of this design organisation approval shall be entitled to perform design activities under Part21 and within its scope of approval.
- b) Subject to 21.A.257(b), the Agency shall accept without further verification compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining:
 1. a type-certificate or approval of a major change to a type-certificate
- c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:
 1. to classify changes to type-certificate and repairs as "major" or "minor";
 2. to approve minor changes to type-certificate and minor repairs;
 3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA ref. EASA.21J.300";
 4. to approve the design of major repairs to products for which it holds the type-certificate;

5 Limitations

[See in 1, above]

1. Scope of approval per § 1 above excludes activities related to design and certification of SW or integration of engine equipment containing SW.
